The NOFA Organic Lawn and Turf Handbook

Beautiful Grass Naturally

A publication of the Organic Land Care Committee of the
Northeast Organic Farming Association (NOFA), Connecticut and Massachusetts Chapters

Visit www.organiclandcare.net
for more info or to order your copy online!

This 104-page, comprehensive and practical handbook details methods for growing and managing beautiful, healthy, organic turfgrass. Written and edited by scientists and NOFA accredited organic landscapers as a natural companion to NOFA's professional organic lawn and turf courses, it also stands alone as a unique and valuable resource for all landscapers.

This book is aimed at professionals but will be a useful resource for anyone interested in creating beautiful organic lawns, parks or athletic fields in the Northeast.

Topics include:

- Why Organic?
- Site Analysis
- Soil Health, Fertility and Soil Testing
- Soil Amendments
- Cultural Practices
- Making Compost
- Weeds, Insects and Diseases
- Special Issues: Athletic Turf vs. Lawns
- Client Relations and Running a Business
- Obtaining Materials

YES, I would like to order the NOFA Organic Lawn & Turf Handbook!

(Please make checks payable to CT NOFA.) Each handbook costs \$25, plus \$3 each for shipping = \$28.
